

REGION H

Water Planning Group

MEETING MATERIALS

September 2, 2020

Common Region H Terms and Conversion Factors

List of Abbreviations

COA	Certificate of Adjudication
CRU	Collective Reporting Unit
DCP	Drought Contingency Plan
DFC	Desired Future Condition
DOR	Drought of Record
EA	Executive Administrator
EPA	Environmental Protection Agency
FWSD	Fresh Water Supply District
GAM	Groundwater Availability Model
GCD	Groundwater Conservation District
GMA	Groundwater Management Area
GPCD	Gallons Per Capita Per Day
GRP	Groundwater Reduction Plan
IFR	Infrastructure Finance Report
IPP	Initially Prepared Plan
MAG	Modeled Available Groundwater
MPC	Master Planned Community
MUD	Municipal Utility District
MWP	Major Water Provider
PDSI	Palmer Drought Severity Index
PWS	Public Water Supply
RHWPG	Region H Water Planning Group
ROR	Run-of-River
RWP	Regional Water Plan
RWPA	Regional Water Planning Area
RWPG	Regional Water Planning Group
SWIFT	State Water Implementation Fund for Texas
SWP	State Water Plan
TAC	Texas Administrative Code
TCEQ	Texas Commission on Environmental Quality
TPWD	Texas Parks and Wildlife Department
TWC	Texas Water Code
TWDB	Texas Water Development Board
UCM	Unified Costing Model
URS	Unique Reservoir Site
USS	Unique Stream Segment
WAM	Water Availability Model
WCID	Water Control and Improvement District
WCP	Water Conservation Plan
WMS	Water Management Strategy
WRAP	Water Rights Analysis Package
WUD	Water Utility Database
WUG	Water User Group
WWP	Wholesale Water Provider

Water Measurements

1 acre-foot (AF) = 43,560 cubic feet = 325,851 gallons

1 acre-foot per year (ac-ft/yr) = 325,851 gallons per year = 893 gallons per day

1 gallon per minute (gpm) = 1,440 gallons per day = 1.6 ac-ft/yr

1 million gallons per day (mgd) = 1,000,000 gallons per day = 1,120 ac-ft/yr

Region H Water Planning Group
10:00 AM Wednesday
September 2, 2020
Publicly Accessible Webinar/Telephone Conference
(details below)

AGENDA

1. Call to order.
2. Introductions.
3. Review and approve minutes of August 5, 2020 meeting.
4. **Receive public comments on specific issues related to agenda items 5 through 15.** (Public comments limited to 3 minutes per speaker)
5. Receive update from Consultant Team regarding the schedule and milestones for the development of the 2021 Region H Regional Water Plan (RWP).
6. Receive presentation from Consultant Team regarding revisions made to the Initially Prepared Plan in preparation of the draft Final 2021 Region H RWP.
7. Receive update from Consultant Team regarding the development of the list of prioritized projects from the 2021 RWP and consider taking action approving the list of prioritized projects for submittal to TWDB.
8. Review and consider taking action to amend the budget for the development of the 2021 Region H RWP and authorizing the Consultant Team and San Jacinto River Authority to coordinate with TWDB and execute the subsequent contract amendment issued.
9. Consider and take action in adopting the Final 2021 RWP and authorizing submittal of the completed document to the Texas Water Development Board (TWDB) contingent upon incorporation of comments and inclusion of final required materials.
10. Consider and take action authorizing the Consultant Team to make any necessary non-substantive changes to the approved Region H RWP, finalize comments, and transmit the completed document and required materials to TWDB.
11. Discuss and consider taking action to authorize the San Jacinto River Authority to serve as the Region H Political Subdivision for the 6th cycle of regional water planning.
12. Discuss and consider taking action to authorize the Region H Political Subdivision to provide public notice, submit a grant application to the TWDB, and execute a contract with the TWDB on behalf of the Region H Water Planning Group for initial funding of the 6th cycle of Regional Water Planning.
13. Discuss and consider taking action authorizing the Region H Political Subdivision to use funds from the Region H Local Contribution Account to pay for public notice activities for the 6th cycle of Regional Water Planning.
14. Receive report regarding recent and upcoming activities related to communications and outreach efforts on behalf of the Region H Water Planning Group.
15. Agency communications and general information.
16. **Receive public comments.** (Public comments limited to 3 minutes per speaker)
17. Next Meeting: February 3, 2021.
18. Adjourn.

HOW TO PARTICIPATE IN THE PUBLIC MEETING

Notice is hereby given to all interested members of the public that the Region H Water Planning Group will hold a public meeting **via webinar / telephone conference call** pursuant to Texas Government Code, Section 551.125, as amended, and as modified by the temporary suspension of various provisions thereof effective March 16, 2020, by the Governor of Texas in accordance with the Texas Disaster Act of 1975, all as related to the Governor's proclamation on March 13, 2020, certifying that the COVID-19 pandemic poses an imminent threat of disaster and declaring a state of disaster for all counties in Texas. The webinar will begin **at 10:00 a.m. on September 2, 2020** and is anticipated to conclude at noon. If you anticipate providing verbal comment at the public meeting and have email access, please contact info@regionhwater.org prior to the meeting to facilitate an accurate estimate of the number of speakers.

If you choose to participate via the webinar link below, you WILL have the opportunity to provide comments during the designated portion of the meeting.

Webinar Link: <https://attendee.gotowebinar.com/register/7208378849383776784>

After registering, you will receive a confirmation email containing information about joining the webinar.

If you choose to participate via the **GoToWebinar App**, you WILL have the opportunity to provide comments during the designated portion of the meeting.

Please use Webinar ID: 851-877-659.

If you choose to participate in the meeting using the conference call number below, you will NOT have the opportunity to provide comments during the designated portion of the meeting. The conference call phone number is provided for LISTENING PURPOSES ONLY.

Telephone conference call phone number: **(415) 655-0060 and the audio access code is 450-571-519.**

All members of the public may participate in the meeting via webinar, Webinar App, or telephone conference call.

Persons with disabilities who plan to attend this meeting and would like to request auxiliary aids or services are requested to contact Cynthia Bowman at (936) 588-3111 at least three business days prior to the meeting so that appropriate arrangements can be made.

Agenda Item 3

Review and approve minutes of August 5, 2020 meeting.

**REGION H WATER PLANNING GROUP
MINUTES OF REGULAR MEETING
AUGUST 5, 2020**

MEMBERS PRESENT: Gary Ashmore, David Bailey, John Bartos, Robert Bruner, Brad Brunett, Carl Burch, James Comin, Mark Evans, Yvonne Forrest, Bob Hebert, Jace Houston, Brandon Wade, Robert Istre, Glenn Lord, Marvin Marcell, Michael Turco, Kevin Ward, and Pudge Willcox.

DESIGNATED ALTERNATES: Alisa Max for John Blount, Ken Kramer for Carl Masterson, and Jun Chang for Jimmie Schindewolf.

MEMBERS ABSENT: W.R. Baker, Art Henson, James Morrison, and William Teer.

1. CALL TO ORDER

The meeting was called to order at 10:13 a.m.

2. INTRODUCTIONS

There were no introductions.

3. REVIEW AND APPROVE MINUTES OF FEBRUARY 5, 2020 MEETING

Mr. Houston made a motion to approve the minutes of February 5, 2020. The motion was seconded by Mr. Lord and carried unanimously.

4. RECEIVE PUBLIC COMMENTS ON SPECIFIC ISSUES RELATED TO AGENDA ITEMS 5 THROUGH 12

There were no public comments.

5. DISCUSS VACANCY ON THE REGION H WATER PLANNING GROUP (RHWPG) FOR A VOTING MEMBER REPRESENTING SMALL BUSINESS AND CONSIDER TAKING ACTION TO APPROVE A MEMBER TO FILL THE VACANCY ON THE RHWPG

Mr. Wade made a motion to appoint Mr. Ivan Langford to fill the vacancy of voting member representing Small Business. The motion was seconded by Mr. Hebert and carried unanimously.

6. RECEIVE UPDATE FROM CONSULTANT TEAM REGARDING THE SCHEDULE AND MILESTONES FOR THE DEVELOPMENT OF THE 2021 REGION H REGIONAL WATER PLAN (RWP)

Mr. Taucer provided information related to the remaining processes related to the development of the 2021 Region H Regional Water Plan.

7. RECEIVE UPDATE FROM CONSULTANT TEAM REGARDING THE INITIALLY PREPARED PLAN (IPP) PUBLIC AND AGENCY COMMENT PROCESS AND DISCUSS RESPONSES.

Mr. Taucer provided an overview of IPP comments and responses related to Demands and Source Availability, Water Management Strategies, other various comments, and he provided an update to the 2021 Regional Water Plan adjustments.

8. RECEIVE PRESENTATION FROM CONSULTANT TEAM REGARDING REVISIONS MADE TO THE INITIALLY PREPARED PLAN IN PREPARATION OF THE DRAFT FINAL 2021 REGION H RWP TO BE APPROVED AT A SUBSEQUENT RHWPG MEETING

Mr. Taucer provided an overview of various adjustments made to the IPP. He stated that input would be taken from the Regional Water Planning Group, incorporated into the Regional Water Plan, adopt final Regional Water Plan at the September 2, 2020, meeting, and submit the final Regional Water Plan to the Texas Water Development Board (TWDB).

9. RECEVE PRESENTATION FROM CONSULTANT TEAM REGARDING PRELIMINARY DEVELOPMENT OF THE LIST OF PRIORITIZED PROJECTS FROM THE 2021 RWP

Mr. Taucer explained the various methodologies utilized in the development of the list of prioritized projects from the 2021 Regional Water Plan. He stated that the list is scheduled for September approval and will be submitted with the final Regional Water Plan.

10. RECEIVE REPORT REGARDING RECENT AND UPCOMING ACTIVITIES RELATED TO COMMUNICATIONS AND OUT REACH EFFORTS ON BEHALF OF REGION H WATER PLANNING GROUP

Mr. Taucer stated that there were no upcoming activities scheduled as of yet.

11. AGENCY COMMUNICATIONS AND GENERAL INFORMATION

Mr. Alfaro provided information related to upcoming deadlines, future meetings, and other pertinent topics related to the Texas Water Development Board.

12. RECEIVE PUBLIC COMMENTS

There were no public comments.

13. NEXT MEETING

Mr. Evans announced that the next Region H Water Planning Group meeting is scheduled for September 2, 2020.

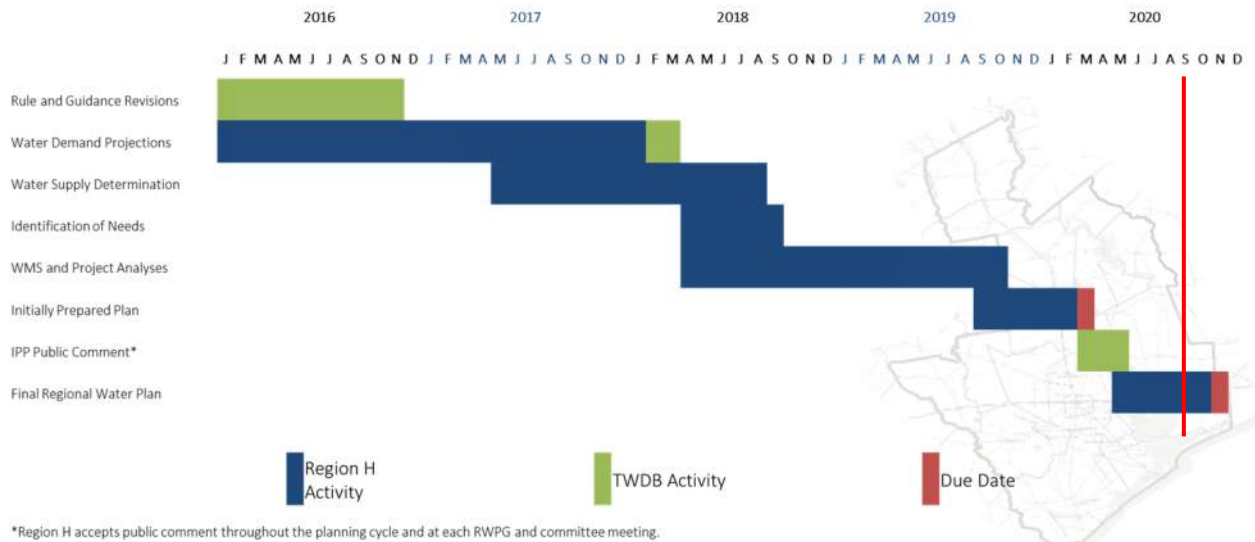

14. ADJOURN

Without objection, the meeting was adjourned at 11:13 a.m.

Agenda Item 5

Receive update from Consultant Team regarding the schedule and milestones for the development of the 2021 Region H RWP.

Agenda Item 5 2021 RWP Schedule

Agenda Item 5 2021 RWP Schedule

Date	Scheduled Events/Tasks
09/02/2020	RWPG Meeting: Review / Approve Final Plan
11/5/2020	DUE DATE: Final Adopted Plan to TWDB
02/03/2021	RWPG Meeting

Dear Regional Water Planning Group Political Subdivisions:

Re: Revision of Contractual Regional Water Plan Deadline and Waiver of Hard Copy Deliverable

As you are aware, the final 2021 Regional Water Plans are due to the TWDB by October 14, 2020, with a data entry deadline of September 14, 2020. Due to the significant amount of assistance that some regional water planning groups (RWPGs) have required for data entry and the limited resources of TWDB's data staff, there is a need to extend the deadline of the final 2021 Regional Water Plans. In lieu of contract amendments, this letter formally documents the extension of the final 2021 Regional Water Plan deliverable to **November 5, 2020**.

Please note that this deadline extension does not change the data completion process currently in place nor does it change the extreme importance of RWPG consultants managing their completion deadline of data finalization. It is imperative that RWPG consultants schedule time with TWDB's Water Supply & Strategy Analysis (WSSA) staff in order to resolve any remaining data issues and generate final data reports. Data entry must now be completed by **October 6, 2020**. RWPGs are to continue limiting data updates to those identified as issues necessary to resolve for approval of the final regional water plans, as coordinated with WSSA staff. Please also be aware that it is currently unreasonable to request a turnaround of data entry and updated reports within a few days. The TWDB advises RWPGs to authorize consultants to make non-substantial changes to the plan, including updating data reports, as appropriate, when taking action to adopt the final 2021 Regional Water Plan.

Additionally, due to COVID-19 pandemic complications associated with the production and delivery of the required hard copies of the final 2021 Regional Water Plans, the TWDB is eliminating the requirement to submit nine (9) hard copies. Instructions on how to submit the deliverables in electronic form will be communicated to RWPGs groups in the near future. Again, no contract amendments will be issued for these revisions.

If you have any questions, please contact Sarah Backhouse at 512-936-2387 or Sarah.Backhouse@twdb.texas.gov.

Sincerely,

Jessica Pena Zuba

Our Mission

Leading the state's efforts in ensuring a secure water future for Texas and its citizens

Board Members

Peter M. Lake, Chairman | Kathleen Jackson, Board Member | Brooke T. Paup, Board Member
Jeff Walker, Executive Administrator

Agenda Item 6

Receive presentation from Consultant Team regarding revisions made to the Initially Prepared Plan in preparation of the draft Final 2021 Region H RWP.

Agenda Item 6 RWP Revisions

- Discussed at July and August meetings
- General
 - Agency comment and new appendix
 - Public comment
 - Sponsor updates
 - Other fine-tuning of costs, schedules, and details
 - DB22 updates
 - Various minor edits

Agenda Item 6 RWP Revisions

ES Executive Summary	4 Needs
<ul style="list-style-type: none">• Updates from other chapters	<ul style="list-style-type: none">• Second-Tier needs discussion
1 Description of Region	5 Water Management Strategies
<ul style="list-style-type: none">• Update member lists	<ul style="list-style-type: none">• WMS and project updates• Updated species lists
2 Population and Water Demands	5B Conservation Recommendations
<ul style="list-style-type: none">• Non-municipal projection clarification	<ul style="list-style-type: none">• Water loss target clarification
3 Current Water Supplies	6 Impacts of the RWP
<ul style="list-style-type: none">• Clarification of non-MAG groundwater sources• Explanation of sedimentation	<ul style="list-style-type: none">• Additional discussion of invasive species• Relocated socioeconomic impacts discussion• Impacts summary appendix

Agenda Item 6 RWP Revisions

7 Drought Response

- Recommendation for coordinated planning
- Consideration of source-independent triggers

8 Recommendations

- Unique Stream Segment impacts summary

9 Financing

- Project cost updates
- Summary of IFR survey results
- Survey results appendix

10 Public Participation

- Summary of public hearings and public comments
- Summary of recent RWPG meetings
- Public process documentation appendices

11 Implementation

- WMS and project updates
- Additional reference to Subchapter 5B

Agenda Item 6 RWP Revisions

- Non-substantive changes
 - IFR survey responses
 - Final document proofing
 - TWDB review of comment responses
 - DB22 updates by TWDB

RWP Document

IFR data

Certification

Implementation data

Electronic Files

Prioritization

Appendix 6-B – Impacts to Resources

6-B-1. OVERVIEW

The Region H Water Planning Group (RHWPG), in developing the 2021 Regional Water Plan (RWP), balanced meeting water needs with good stewardship of the water, agricultural, and natural resources within the region to promote a balance of economic, social, aesthetic, and ecological viability. The Region H strategy selection and evaluation process, described in **Chapter 5**, included application of rating criteria for impacts to environmental land and habitat, instream flows, and bay and estuary inflow. As part of the evaluation of impacts of the 2021 RWP, the RHWPG conducted a quantitative assessment of potential impacts of strategies and projects on agricultural and natural resources in accordance with Title 31, Texas Administrative Code (TAC) § 357.34(e)(3) and Texas Water Development Board (TWDB) guidance.

Multiple agricultural and environmental impacts matrices were developed to quantify and compare the potential impacts of strategies and projects. Impact matrices were developed to take into consideration the following categories:

- Agricultural Resources
- Wildlife Habitat – Project Acreage
- Wildlife Habitat – Environmental Land and Habitat
- Environmental Water Needs
- Bays, Estuaries, and Arms of The Gulf of Mexico
- Cultural Resources

Each category was quantitatively assessed, with a corresponding ranking from 1 to 5 assigned based upon the results of this assessment. Where possible, numerical inputs such as total project acreage or acreage impacted were utilized as inputs to the evaluation process. Where numerical inputs were not available or variable, impacts were categorized by level of impact and assigned a corresponding ranking. Evaluation methodologies and ranking assignments for each category are discussed in the following sections.

6-B-2. AGRICULTURAL RESOURCES

Potential impacts to agricultural resources were quantified and scored based on direct impacts to agricultural acreage; strategies and projects in the RWP are not expected to reduce the availability of firm water supplies of irrigation users. A quantitative assessment was conducted to assess the impact to agricultural acreage for each key project. Where data on disturbed or developed acreage was not available from project sponsors, acreage was estimated using project-specific assumptions or based upon project components types and standard RWP assumptions on component acreage as applied in the TWDB Unified Costing Model. This assessment considered the infrastructure required for a project, as well as the presence of agricultural resources in the project area. *Table 6-B-1* describes the quantitative thresholds used to score each key project for its impact on agricultural acreage and resources.

The following assumptions and observations were made for this criterion:

- Non-infrastructure projects do not impact agricultural lands or production.
- Project developed in an urban setting do not impact agricultural lands or production.
- WUG-Level infrastructure, pipelines, and groundwater wells can generally be located in areas avoiding most or all agricultural impacts.
- If the location of the project is known and data is available to estimate impacts to agricultural resources, this information was used to evaluate a project and assign an impact score.
- Scoring for groundwater reduction plans (GRPs) considered whether the associated infrastructure is reflected in the RWP as a direct GRP component or included under one or more other key projects.
- For projects that have positive impacts to agricultural resources and/or provide additional water supply or demand management to agriculture, the project is rated as “positive impacts.”

Table 6-B-1 – Agricultural Resources Impact Scoring Matrix

Estimated Agricultural Acres Impacted	Impact Description	Agricultural Resources Score
>10,000 acres	High Impact	1
5,001-10,000 acres	Medium High	2
2,001-5,000 acres	Medium	3
101-2,000 acres	Medium Low	4
1-100 acres	Low	5
No area Impacted	None	5
Positive acreage impacts and provides water supply or demand management to agriculture	Positive	5

6-B-3. WILDLIFE HABITAT – PROJECT ACREAGE

This criterion evaluates the potential degree of impact to wildlife habitat based on total estimated project acreage. A quantitative assessment was conducted to estimate the total acreage impacted by the infrastructure of each key project. Where data on disturbed or developed acreage was not available from project sponsors, acreage was estimated using project-specific assumptions or based upon project components types and standard RWP assumptions on component acreage as applied in the TWDB Unified Costing Model. This estimate of total acreage was applied to evaluate and assign a score to each key project for this criteria, based on the quantitative thresholds shown in *Table 6-B-2*. It should be noted that application of total acreage is a highly conservative indicator of potential wildlife habitat impact, as many of the key projects recommended in the 2021 RWP are associated with infrastructure expansion at existing water facility sites or would be developed in heavily urbanized areas.

The following assumptions and observations were made for this criterion:

- If the location of the project is known and data is available regarding impacts to specific wildlife habitats or a detailed study has been conducted, this information was used to evaluate a project and assign an impact score.
- Non-infrastructure projects do not impact wildlife habitat.
- The majority of projects evaluated require infrastructure that will have low impact on wildlife habitat acreage.
- Scoring for GRPs considered whether the associated infrastructure is reflected in the RWP as a direct GRP component or included under one or more other key projects.
- Projects with potential medium high to high impacts to habitat acreage are expected to be those with a large geographic footprint, including reservoirs.

Table 6-B-2 –Habitat Project Acreage Impact Scoring Matrix

Summary	Impact Description	Wildlife Habitat Score
>10,000 acres	High	1
5,001-10,000 acres	Medium High	2
2,001-5,000 acres	Medium	3
101-2,000 acres	Medium Low	4
1-100 acres	Low	5
Non-infrastructure projects	None	5

6-B-4. WILDLIFE HABITAT - ENVIRONMENTAL LAND AND HABITAT

This criterion evaluates the degree of potential environmental land and habitat impacts based on project-specific considerations associated with development setting, degree of expected disturbance, impacts to surrounding areas, mitigation opportunities, and degree of opposition. *Table 6-B-3* explains the categories used to evaluate and score each key project for impacts on environmental land and habitat.

The "Environmental Land and Habitat" criterion was also evaluated and scored for each key project under the second phase (the Matrix Evaluation phase) of WMS evaluation described in **Section 5.3.4** of the RWP. The scoring for this criterion is consistent with the Region H WMS Rating Criteria matrix in **Table 5-2**. More detailed discussions regarding environmental land and habitat impacts for each key project can be found in the technical memoranda in **Appendix 5-B**.

The following assumptions and observations were made for this criterion:

- If environmental land impacts have been already been evaluated in a detailed study, this information was used to evaluate a project and assign an impact score.
- Non-infrastructure projects do not impact wildlife habitat.
- Projects with anticipated development on existing water facility sites or in urban settings are typically expected to have low to medium impacts.
- Large scale conveyance projects are typically expected to have medium impacts due to urbanized settings or the ability to select routes to reduce habitat impacts.

Table 6-B-3 – Environmental Land and Habitat Impact Scoring Matrix

Summary	Impact Description	Wildlife Habitat Score
Significant environmental issues and opposition.	High	1
Some environmental issues and opposition.	Medium High	2
Environmental impacts can be mitigated. Limited concerns.	Medium	3
Minimal mitigation of impacts needed. Minimal concerns.	Medium Low	4
Limited or no known impacts.	Low	5

6-B-5. ENVIRONMENTAL WATER NEEDS

This criterion evaluates the degree of impact that a project could have on an area’s overall environmental water needs. Water is vital to the environmental health of a region. Therefore, is imperative to consider the extent to which water supply projects could impact the amount of water that will be available to the environment, and how this could affect environmental needs and health. The evaluation of environmental water needs focused on impacts to instream flows regimes upstream and downstream of the project. While Senate Bill 3 environmental flow parameters were considered as part of the evaluation process, the assessment of environmental water needs was not constrained to statutory flow requirements and incorporated project and site-specific considerations regarding potential impacts to both upstream and downstream flows. *Table 6-B-4* presents the categories used to evaluate and score each key project for this criterion. More detailed discussions regarding environmental flows, including instream flows, for each key project can be found in their respective technical memoranda in **Appendix 5-B**.

The following assumptions and observations were made for this criterion:

- If impacts on environmental water needs and instream flows have been already been evaluated in a detailed study, this information was used to evaluate a project and assign an impact score.
- Groundwater development projects, excluding aquifer storage and recovery, potentially increase instream flows through return flows from points of use.

- The majority of recommended treatment and transmission projects do not directly impact instream flows directly , as they are supplied through other source development projects.
- Source development projects such as intake expansions, reuse, and reservoir development are associated with reduced instream flows.
- Scoring for GRPs considered whether the associated infrastructure is reflected in the RWP as a direct GRP component or included under one or more other key projects.

Table 6-B-4 – Environmental Water Needs Impact Scoring Matrix

Environmental Water Needs	Impact Description	Environmental Needs Score
Significantly reduces instream flows.	Significant Decrease	1
Reduces instream flows.	Moderate Decrease	2
Limited or no impact.	None or Limited	3
Increases instream flows.	Moderate Increase	4
Significantly increases instream flows.	Significant Increase	5

6-B-6. BAYS, ESTUARIES, AND ARMS OF THE GULF OF MEXICO

This criterion evaluates the degree of potential environmental impact that the implementation of a project could have on nearby bays and estuaries, as well as arms of the Gulf of Mexico. Region H includes the Galveston and Trinity Bay estuaries and touches portions of the Gulf of Mexico. As a result, some projects included in the 2021 Region H Water Plan could have an environmental impact on these bays, estuaries, or the Gulf of Mexico. This criterion was primarily evaluated based on the degree of impact that a project could have on bay and estuary (B&E) flows. While Senate Bill 3 environmental flow parameters were considered as part of the evaluation process, the assessment of bay and estuary impacts was not constrained to statutory flow requirements and incorporated project and site-specific considerations regarding potential impacts to flows. It should be noted that the TCEQ water right permitting process as well as the rules for RWP development preclude the inclusion of strategy or project supply availability inconsistent with established instream flow requirements. *Table 6-B-5* depicts the categories used to evaluate and score each key project for this criterion. More detailed discussions regarding environmental flows, including B&E flows, for each key project can be found in the technical memoranda in **Appendix 5-B**.

The following assumptions and observations were made for this criterion:

- If impacts to environmental flows into bays and estuaries or the Gulf of Mexico have been evaluated in a detailed study, this information was used to evaluate a project and assign an impact score.
- Groundwater development projects, excluding aquifer storage and recovery, potentially increase flows through return flows from points of use.

- The majority of recommended treatment and transmission projects do not directly impact bay and estuary inflows directly , as they are supplied through other source development projects.
- Source development projects such as intake expansions, reuse, and reservoir development are associated with reduced bay and estuary inflows.
- Scoring for GRPs considered whether the associated infrastructure is reflected in the RWP as a direct GRP component or included under one or more other key projects.

Table 6-B-5 – Bay and Estuary Scoring Matrix

Environmental Water Needs	Impact Description	Environmental Needs Score
Significantly reduces B&E inflow.	Significant Decrease	1
Reduces B&E flows.	Moderate Decrease	2
Limited or No impact.	None or Limited	3
Increases B&E flows.	Moderate Increase	4
Significantly increases B&E flows.	Significant Increase	5

6-B-7. CULTURAL RESOURCES

This criterion evaluates the degree to which a project could impact cultural resources located within the area. Cultural resources are defined as the collective evidence of the past activities and accomplishments of people. Locations, buildings, and features with scientific, cultural, or historic value are considered to be cultural resources. *Table 6-B-6* lists the categories used to evaluate and score each key project for this criterion.

The following assumptions and observations were made for this criterion:

- If impacts to cultural resources have been discussed in a detailed study, this information was used to evaluate a project and assign an impact score.
- Non-infrastructure projects do not impact cultural resources.
- In most cases, Region H projects are expected to have no or low impact on cultural resources because they are located in areas that avoid areas of known cultural resources.
- Impacts to cultural resources can often be avoided during detailed design. Many of the projects in the RWP have not yet reached this point, but would be expected during the detailed design phase to investigate options for avoiding and mitigating impacts.
- Projects that primarily involve wells, conveyance, or development of infrastructure at existing facilities or heavily developed areas were assumed to have a low impact on cultural resources.
- New treatment and facilities that have siting flexibility to mitigate impacts to cultural resources were assumed to have a medium low impact.

- Reservoirs were assumed to have a medium to medium high impact, depending upon where the site will be located.

Table 6-B-6 – Cultural Resources Scoring Matrix

Summary	Impact Description	Cultural Resources Score
Projects with known high cultural impacts	High	1
Reservoirs with potential for above-average cultural impacts or development on natural lands	Medium High	2
Default assumption for reservoirs primarily on pre-disturbed sites	Medium	3
New treatment and other facilities with some flexibility in siting	Medium Low	4
Wells, transmission, development at existing facility or heavily developed area	Low	5
Non-infrastructure projects	None	5

6-B-8. SUMMARY OF IMPACTS ANALYSIS

Results of the analyses of impacts to agricultural, natural, and cultural resources for key WMS and projects evaluated in the RWP are summarized in *Table 6-B-7*. The table provides reference information on locations, development settings, and recommendation status. The table also provides reference information on the corresponding technical memoranda included in **Appendix 5-B** for each key water management strategy and project.

Agenda Item 7

Receive update from Consultant Team regarding the development of the list of prioritized projects from the 2021 RWP and consider taking action approving the list of prioritized projects for submittal to TWDB.

Agenda Item 7 Project Prioritization

- Discussed at August meeting
- No requests for clarification and revision
- Minor updates for formal sponsor request

Agenda Item 7 Project Prioritization

Action:

Approve the list of prioritized projects from the 2021 Regional Water Plan for submittal to the Texas Water Development Board.

Project Name	Project Sponsor Entity	Capital Cost	Rural/Agricultural Conservation? Conservation/Reuse?	Criteria 1 - Decade of Need for Project				Criteria 2 - Project Feasibility					
				10	10	20	400	5	5	10	5	25	100
				Uniform Standard 1A - What is the decade the RWP shows the project comes online? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Uniform Standard 1B - In what decade is initial funding needed? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Criteria 1 Total Score	Weighted Criteria 1 Total	Uniform Standard 2A - What supporting data is available to show that the quantity of water needed is available? [Models suggest insufficient quantities of water or no modeling performed = 0 points; models suggest sufficient quantity of water = 3; Field tests, measurements, or project specific studies confirm sufficient quantities of water = 5]	Uniform Standard 2B - If necessary, does the sponsor hold necessary legal rights, water rights and/or contracts to use the water that this project would require? [Legal rights, water rights and/or contract application not submitted = 0 points; application submitted = 2; application is administratively complete = 3; legal rights, water rights and/or contracts obtained or not needed = 5]	Uniform Standard 2C - What level of engineering and/or planning has been accomplished for this project? [Project idea is outlined in RWP = 1 point; feasibility studies initiated = 2; feasibility studies completed = 3; conceptual design initiated = 4; conceptual design completed = 5; preliminary engineering report initiated = 6; preliminary engineering report completed = 7; preliminary design initiated = 8; preliminary design completed = 9; final design complete = 10]	Uniform Standard 2D - Has the project sponsor requested in writing that the project be included in the Regional Water Plan? [No = 0 points; yes = 5]	Criteria 2 Total Score	Weighted Criteria 2 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability						Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank		
		100	10	100	10	5	5	30.00	250.00	10	5	15	150			5	100
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Capital Cost	Rural/Agricultural Conservation? Conservation/Reuse?	Criteria 1 - Decade of Need for Project				Criteria 2 - Project Feasibility					
				10	10	20	400	5	5	10	5	25	100
				Uniform Standard 1A - What is the decade the RWP shows the project comes online? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Uniform Standard 1B - In what decade is initial funding needed? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Criteria 1 Total Score	Weighted Criteria 1 Total	Uniform Standard 2A - What supporting data is available to show that the quantity of water needed is available? [Models suggest insufficient quantities of water or no modeling performed = 0 points; models suggest sufficient quantity of water = 3; Field tests, measurements, or project specific studies confirm sufficient quantities of water = 5]	Uniform Standard 2B - If necessary, does the sponsor hold necessary legal rights, water rights and/or contracts to use the water that this project would require? [Legal rights, water rights and/or contract application not submitted = 0 points; application submitted = 2; application is administratively complete = 3; legal rights, water rights and/or contracts obtained or not needed = 5]	Uniform Standard 2C - What level of engineering and/or planning has been accomplished for this project? [Project idea is outlined in RWP = 1 point; feasibility studies initiated = 2; feasibility studies completed = 3; conceptual design initiated = 4; conceptual design completed = 5; preliminary engineering report initiated = 6; preliminary engineering report completed = 7; preliminary design initiated = 8; preliminary design completed = 9; final design complete = 10]	Uniform Standard 2D - Has the project sponsor requested in writing that the project be included in the Regional Water Plan? [No = 0 points; yes = 5]	Criteria 2 Total Score	Weighted Criteria 2 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability						Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank		
		100	10	100	10	5	5	30.00	250.00	10	5	15	150			5	100
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGS) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGS) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability						Criteria 4 - Project Sustainability						Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Weighted Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGS) needs satisfied by this project? [Calculation is based on the needs of all WUGS receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGS) needs satisfied by this project? [Calculation is based on the needs of all WUGS receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

Project Name	Project Sponsor Entity	Capital Cost	Rural/Agricultural Conservation? Conservation/Reuse?	Criteria 1 - Decade of Need for Project				Criteria 2 - Project Feasibility					
				10	10	20	400	5	5	10	5	25	100
				MAXIMUM SCORES --->									
				Uniform Standard 1A - What is the decade the RWP shows the project comes online? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Uniform Standard 1B - In what decade is initial funding needed? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Criteria 1 Total Score	Weighted Criteria 1 Total	Uniform Standard 2A - What supporting data is available to show that the quantity of water needed is available? [Models suggest insufficient quantities of water = 0 points; models suggest sufficient quantity of water = 3; Field tests, measurements, or project specific studies confirm sufficient quantities of water = 5]	Uniform Standard 2B - If necessary, does the sponsor hold necessary legal rights, water rights and/or contracts to use the water that this project would require? [Legal rights, water rights and/or contract application not submitted = 0 points; application submitted = 2; application is administratively complete = 3; legal rights, water rights and/or contracts obtained or not needed = 5]	Uniform Standard 2C - What level of engineering and/or planning has been accomplished for this project? [Project idea is outlined in RWP = 1 point; feasibility studies initiated = 2; feasibility studies completed = 3; conceptual design initiated = 4; conceptual design completed = 5; preliminary engineering report initiated = 6; preliminary engineering report completed = 7; preliminary design initiated = 8; preliminary design completed = 9; final design complete = 10]	Uniform Standard 2D - Has the project sponsor requested in writing that the project be included in the Regional Water Plan? [No = 0 points; yes = 5]	Criteria 2 Total Score	Weighted Criteria 2 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability								Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank
		100	10	100	10	5	5	30.00	250.00	10	5	15	150	5	100		
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

MAXIMUM SCORES -->				Criteria 1 - Decade of Need for Project				Criteria 2 - Project Feasibility					
Project Name	Project Sponsor Entity	Capital Cost	Rural/Agricultural Conservation? Conservation/Reuse?	10	10	20	400	5	5	10	5	25	100
				Uniform Standard 1A - What is the decade the RWP shows the project comes online? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Uniform Standard 1B - In what decade is initial funding needed? [2070 = 0 points; 2060 = 2; 2050 = 4; 2040 = 6; 2030 = 8; 2020 = 10]	Criteria 1 Total Score	Weighted Criteria 1 Total	Uniform Standard 2A - What supporting data is available to show that the quantity of water needed is available? [Models suggest insufficient quantities of water or no modeling performed = 0 points; models suggest sufficient quantity of water = 3; Field tests, measurements, or project specific studies confirm sufficient quantities of water = 5]	Uniform Standard 2B - If necessary, does the sponsor hold necessary legal rights, water rights and/or contracts to use the water that this project would require? [Legal rights, water rights and/or contract application not submitted = 0 points; application submitted = 2; application is administratively complete = 3; legal rights, water rights and/or contracts obtained or not needed = 5]	Uniform Standard 2C - What level of engineering and/or planning has been accomplished for this project? [Project idea is outlined in RWP = 1 point; feasibility studies initiated = 2; feasibility studies completed = 3; conceptual design initiated = 4; conceptual design completed = 5; preliminary engineering report initiated = 6; preliminary engineering report completed = 7; preliminary design initiated = 8; preliminary design completed = 9; final design complete = 10]	Uniform Standard 2D - Has the project sponsor requested in writing that the project be included in the Regional Water Plan? [No = 0 points; yes = 5]	Criteria 2 Total Score	Weighted Criteria 2 Total

Project Name	Project Sponsor Entity	Criteria 3 - Project Viability						Criteria 4 - Project Sustainability				Criteria 5 - Project Cost Effectiveness		FINAL SCORE FOR PROJECT	Rank	
		100	10	100	10	5	5	30.00	250.00	10	5	15	150			5
		Uniform Standard 3A - In the decade the project supply comes online, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3A	Uniform Standard 3B - In the final decade of the planning period, what is the % of the WUG's (or WUGs) needs satisfied by this project? [Calculation is based on the needs of all WUGs receiving water from the project.]	Converted Needs-based score for Uniform Standard 3B	Uniform Standard 3C - Is this project the only economically feasible source of new supply for the WUG, other than conservation? [No = 0 points; Yes = 5]	Uniform Standard 3D - Does this project serve multiple WUGs? [No = 0 points; Yes = 5]	Criteria 3 Total Score	Weighted Criteria 3 Total	Uniform Standard 4A - Over what period of time is this project expected to provide water (regardless of the planning period)? [Less than or equal to 20 yrs = 5 points; greater than 20 yrs = 10]	Uniform Standard 4B - Does the volume of water supplied by the project change over the regional water planning period? [Decreases = 0 points; no change = 3; increases = 5]	Criteria 4 Total Score	Weighted Criteria 4 Total	Uniform Standard 5A - What is the expected unit cost of water supplied by this project compared to the median unit cost of all other recommended strategies in the region's current RWP? (Project's Unit Cost divided by the median project's unit cost) [200% or greater than median = 0 points; 150% to 199% = 1; 101% to 149% = 2; 100% = 3; 51% to 99% = 4; 0% to 50% = 5]	Criteria 5 Total

State Water Implementation Fund for Texas (SWIFT)*

The State Water Implementation Fund for Texas (SWIFT) was created by the Texas Legislature to provide affordable, ongoing state financial assistance for projects in the state water plan. The program helps communities develop cost-effective water

supplies by providing low-interest loans, extended repayment terms, deferral of loan repayments, and incremental repurchase terms. Through Fiscal Year 2019, SWIFT has committed over \$8 billion for projects across Texas.

Eligible Applicants

- Any political subdivision or nonprofit water supply corporation with a project included in the most recently adopted state water plan

Eligible Projects

- Recommended water management strategy projects with an associated capital cost in the most recently adopted state water plan at the time abridged applications are due to the TWDB for consideration
- Projects include conservation and reuse, desalinating groundwater and seawater, building new pipelines, developing reservoirs and well fields, and purchasing water rights, as well as numerous other strategies

Benefits and Terms

- Base interest rates reflect the TWDB's low cost of funds (additional subsidies may apply and are set by the Board for each funding cycle)
- Up to 30-year repayment period
- Flexible financing structures:
 - **Low-interest Loans**
 - **Deferred Loans** - Principal and interest deferred up to eight years or until end of construction (for planning and design phase costs), whichever is sooner
 - **Board Participation** - A temporary TWDB ownership interest in the excess capacity of a state water plan project, providing an entity the opportunity to reasonably finance an optimally sized regional facility. The TWDB may participate in up to 80% of the total project costs.
- Additional interest rate subsidies for rural or agricultural water conservation/irrigation projects
- No maximum funding limit

- Multi-year commitments
- State level environmental review

Program Requirements

- Projects must be recommended water management strategies in the adopted regional water plans that are included in the most recently adopted state water plan at the time abridged applications are due to the TWDB for consideration and have an associated capital cost
- Completion of an Infrastructure Financing Survey
- Adoption of a water conservation and drought contingency plan (for entities receiving assistance greater than \$500,000)
- Financing Agreement and Private Placement Memorandum
- Historically Underutilized Business (HUB) reporting
- U.S. Iron and Steel requirements (except for projects that received a SWIFT program funding commitment before May 1, 2019, for any portion of the project)
- Reservoir funding must be segmented or phased; permitting is required prior to a construction commitment
- Board Participation is limited to funding of excess capacity portion and up to 80% of total project costs
- Review of legislative requirements regarding water loss threshold limits

For specific questions on the program, please contact Financial_Assistance@twdb.texas.gov. Detailed information on the program is also available at www.twdb.texas.gov/financial/programs.

** The SWIFT program includes two funds, the State Water Implementation Fund for Texas (SWIFT) and the State Water Implementation Revenue Fund for Texas (SWIRFT). Bonds for the program are issued through SWIRFT.*

Prioritization for State Water Implementation Fund for Texas (SWIFT)

The Texas Legislature directed the TWDB to develop rules that specify how projects will be prioritized for SWIFT funding according to criteria (in bold). The prioritization system in 31 Texas Administrative Code §363.1304 assigns points as follows:

<i>Highest consideration must be given to projects that will:</i>	Maximum Points	<i>Additional criteria that TWDB must consider:</i>	Maximum Points
Serve a large population , based on a range of populations to be served by the project, from at least 10,000 to at least 1,000,000	30	Local contribution , including federal funding ; up-front capital (such as funds already invested in the project or cash on hand); and/or in-kind services to be invested in the project	5
Provide assistance to a diverse urban and rural population , based on the number of rural populations served in addition to at least one urban population	30	Financial capability of the applicant to repay , based on the applicant's household cost factor (the average annual cost of service per household divided by the median household income)	2
Provide regionalization , based on the number of entities served in addition to the applicant	30	Emergency Need , based on the TCEQ's list of local public water systems with a water supply that will last less than 180 days without additional rainfall; a water supply need anticipated to occur in an earlier decade than identified in the most recent state water plan; and/or the applicant has used or applied for federal funding for the emergency	5
Meet a high percentage of water supply needs of users to be served by the project , based on water supply needs, as identified in the state water plan, that will be met during the first decade the project becomes operational	30	Readiness to proceed , based on applicant's completion of preliminary planning and/or design work; ability to begin implementing or constructing the project within 18 months of application deadline; and acquisition of water rights associated with the project	8
		Demonstration or projected effect of the project on water conservation, including preventing water loss , based on reductions in gallons per capita per day water use; meeting water loss thresholds established by the TWDB's rules; or projected water efficiency improvements for agricultural projects	15
		Priority assigned by the regional water planning group , based on the project's percentile within the regional project ranking	15
Maximum "Highest Consideration" Subtotal <i>(Points awarded in this section may not exceed 50)</i>	50	+	Maximum "Additional Criteria" Subtotal 50
Maximum Total Points: 100 (Sum of "Highest Consideration" Subtotal and "Additional Criteria" Subtotal)			

Agenda Item 8

Review and consider taking action to amend the budget for the development of the 2021 Region H RWP and authorizing the Consultant Team and San Jacinto River Authority to coordinate with TWDB and execute the subsequent contract amendment issued.

Agenda Item 8

Budget

Action:

Approve budget amendment and authorize the Consultant Team and San Jacinto River Authority to coordinate with TWDB and execute the subsequent contract amendment issued.

Agenda Item 9

Consider and take action in adopting the Final 2021 RWP and authorizing submittal of the completed document to the Texas Water Development Board (TWDB) contingent upon incorporation of comments and inclusion of final required materials.

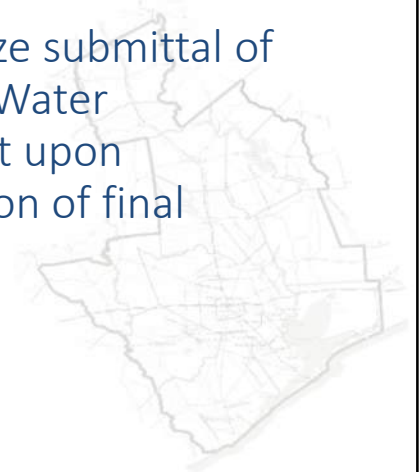

Agenda Item 10

Consider and take action authorizing the Consultant Team to make any necessary non-substantive changes to the approved Region H RWP, finalize comments, and transmit the completed document and required materials to TWDB.

Agenda Items 9 and 10 Plan Adoption

Action:

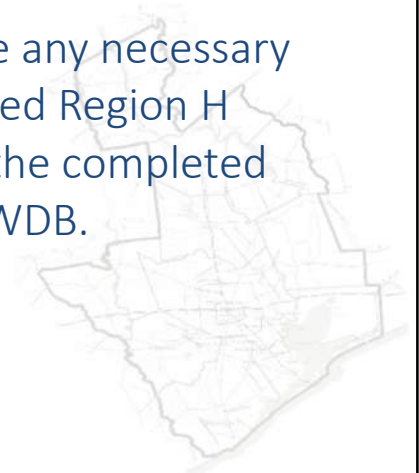

Adopt the Final 2021 RWP and authorize submittal of the completed document to the Texas Water Development Board (TWDB) contingent upon incorporation of comments and inclusion of final required materials.

Agenda Items 9 and 10 Plan Adoption

Action:

Authorize the Consultant Team to make any necessary non-substantive changes to the approved Region H RWP, finalize comments, and transmit the completed document and required materials to TWDB.

Agenda Item 11

Discuss and consider taking action to authorize the San Jacinto River Authority to serve as the Region H Political Subdivision for the 6th cycle of regional water planning.

Agenda Item 11

Political Subdivision

Action:

Authorize the San Jacinto River Authority to serve as the Region H Political Subdivision for the 6th cycle of regional water planning.

Agenda Item 12

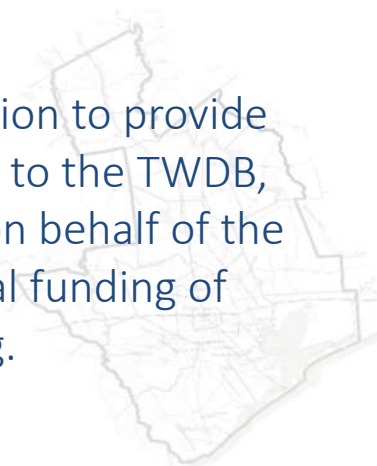

Discuss and consider taking action to authorize the Region H Political Subdivision to provide public notice, submit a grant application to the TWDB, and execute a contract with the TWDB on behalf of the Region H Water Planning Group for initial funding of the 6th cycle of Regional Water Planning.

Agenda Item 12

Grant Application

Action:

Authorize the Region H Political Subdivision to provide public notice, submit a grant application to the TWDB, and execute a contract with the TWDB on behalf of the Region H Water Planning Group for initial funding of the 6th cycle of Regional Water Planning.

A faint, light-colored map of Region H is visible in the background on the right side of the page. It shows a network of roads and a central area that might be a city or town center.

Agenda Item 13

Discuss and consider taking action authorizing the Region H Political Subdivision to use funds from the Region H Local Contribution Account to pay for public notice activities for the 6th cycle of Regional Water Planning.

Agenda Item 13

Local Contribution Account

Action:

Authorize the Region H Political Subdivision to use funds from the Region H Local Contribution Account to pay for public notice activities for the 6th cycle of Regional Water Planning.
